# PAINT BAKED

We only need one excuse to avoid the disturbance around, forgetting all the special management, and holding some clear and peace in the world. Close your eyes, look for a forest, a place full of sunshine and poetic conception around with lake, green belt, which can seclude yourself from the crowded people and city, and all the tumult. All breaths are changed into the silent things which grow stealthily in the deep memory. All these are so simple and poetry, harmonious and kindly.
